

Kelly
Smoother

LAND & PROPERTY DEVELOPMENT - INTER ROW LEVELING & CULTIVATION

Your needs and imagination are the limit

This innovative tool uses the proven technology from our Diamond Harrow and focus on preparing, levelling and smoothing levee banks, roadways and small fields. The Kelly Smoother smooths, levels plowed down levees and will work in wet or dry conditions. Rutted and corrugated farm roads can be smoothed and levelled quickly & economically using the Kelly Smoother as a rotary road grader.

The 12' cutting width is ideal for 60 – 80hp tractors and can also be used in small fields, gravel lots & equestrian tracks.

Kelly Diamond Harrow

Whether it's stubble management, weed control, moisture management or creating that perfect seedbed prior to planting, the unique diamond shaped Kelly Tillage System offers a wide array of ground engaging discs to satisfy your year round tillage requirements. No farm is too big or too small for the Kelly Tillage System. Standard models range from 6m to 24m, including controlled traffic models. The Kelly Seeder provides enormous cost saving benefits through one pass broadcasting and incorporation. With a reputation for strength and reliability, the Kelly Tillage System is versatile and tough enough for every application.
